

Susan Harwood Grant Training

Safe Shipyard Practices Program – S2P2

As you may know, one or more of the MSRs will soon be requiring subcontractors to be “safety certified” prior to entering the MSR shipyards. Either this free 8-hr training or the OSHA 10-hr course will meet this requirement. **The Port of San Diego Ship Repair Association is presenting this training through this Harwood grant to reduce shipyard injuries!**

This One-Day shipyard specific workshop will focus on:

- **Walking and Working Surfaces**
- **Personal Protective Equipment**
- **Fall Protection / Scaffolding**
- **Electrical Hazards**
- **Confined Spaces Safety**
- **Fire Safety**
- **Hazardous Communication/Hazardous Materials**
- **Lockout / Tag out**
- **Respirator Protection**

Who to send? All production workers and employees working in the MSR shipyards.

When to attend? The workshops will be presented from Sept. through Dec. 2010.

Where to attend? The workshops will be presented at various locations near the waterfront. Select workshops will be presented in Spanish.
See the following schedule for dates/times/locations.

Please plan to take advantage of this no-cost workshop! A certification card from the Port of San Diego Ship Repair Association will be given to each trainee, recognizing successful completion of the workshop. Contact Jaymes Green, Safety Training Project Coordinator, at QTSJaymes@cox.net or call (619) 549-5439 to register.
